DOHA

Middle East Forum on Quality and Safety in Healthcare

National Diabetes Clinical Guidelines

Dr. Mahmoud Ali Zirie, Director of National Diabetes Center-HGH

22 March 2019

Patient Safety First

Brought to you by Hamad Healthcare Quality Institute

As part of our extensive program and with CPD hours awarded based on actual time spent learning, credit hours are offered based on attendance per session, requiring delegates to attend **a minimum of 80%** of a session to qualify for the allocated CPD hours.

- **Less than 80%** attendance per session = **0 CPD hours**
- **80% or higher** attendance per session = **full allotted CPD hours**

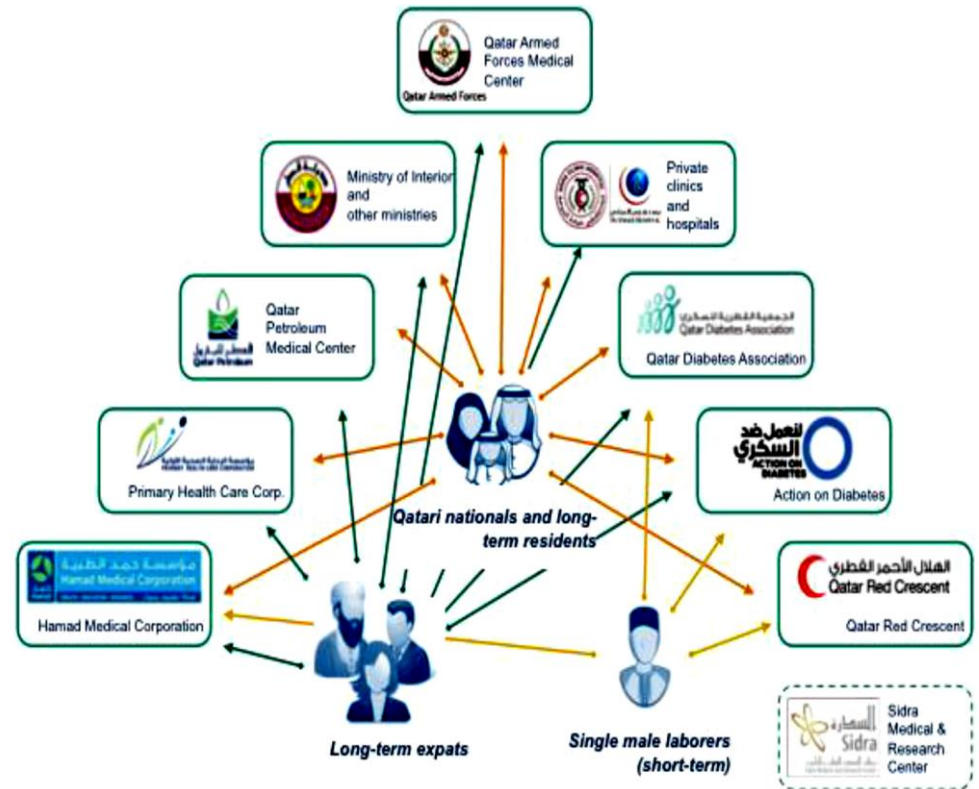

Total CPD hours for the forum are awarded based on the sum of CPD hours earned from all individual sessions.

Conflict of Interest Declaration

I do not have an affiliation (financial or otherwise) with a pharmaceutical, medical device, or communications and event planning company.

Challenges In Diabetes Service-Qatar

- Variation in Access
- Variation in service provision
- Variation in Perception
- Variation in Implementation
- Coordination of Referral Criteria

The National Diabetes Committee (NDC).

Lead:

- Dr. Mahmoud Zirie, HMC – Chief, Adult Diabetes

Members:

- Ms. Enas A/Gadir Abdoun Osman, HMC - Clinical Pharmacist, National Diabetes Center, HGH
- Dr. Mohamed Bashir, Clinical Lead, Pregnancy and Diabetes
- Dr. Dahila Mustafa Hassan, Consultant, PHCC
- Dr. Mohsin Saleh Ahmed Mismar, Head of Service Improvement, PHCC
- Ms. Joelle Bevington, Program Manager, PHCC
- Dr. Ameena Fakhroo, Consultant PHCC & Physician in Charge of Al Thumama Health Center

Objectives

- Establish Guidelines & Protocol Work Group
- Develop enforceable guidelines for public and private sector
- Obtain national agreement on standardized clinical guidelines, referral criteria and protocols, i.e. patient pathways
- Design national coordination of care process

Awareness and Prevention

Deliver clear messages in targeted promotional campaigns, reinforced across multiple channels

Patient Empowerment

Provide education and coaching to empower patients to take action to improve their own health outcomes

Care Delivery

Design the governance, structure, process to guide HCPs and patients around the new diabetes care model

Human Capital and Capacity Building

Build the pool of diabetes care resources, increase capability, developing the infrastructure, policies and enablers

Information Management

Build new policies, infrastructure and capabilities for health information collection, analysis, communication and reporting

Research

Govern the national research agenda and to build the national diabetes research platform, infrastructure and capabilities

Developed Diabetes Guidelines-Qatar

- Type 1 DM in adults & elderly
- Type 2 DM in adults & elderly
- Diabetes in children & adolescents
- Diabetes in pregnancy
- Chronic complications of diabetes
- Diabetes In Special Situations

Screening for diabetes and related cardiovascular risk factors and the management of pre-diabetes and its risk factors

Ministry of Public Health

National Health Strategy

National Cancer Strategy
