Please...Keep me Safe

Welcome to Pediatric Emergency Center (PEC) of Hamad General Hospital. It is our commitment to provide safe, high quality patient care and customer service. To help us deliver these services, we would like to draw your attention to the safety measures below:

Bringing healthy child

While we recognize and encourage family support as part of our patient and family centered care, bringing healthy children with sick ones to the Pediatric Emergency Center may jeopardize the health of your healthy child. This also increases the chance of children acquiring infections as they may be exposed to the viruses and bacteria other children visiting the center have. Besides, caring for more than one child at the same time is not an easy job, especially if one is sick.

Please be reminded to leave your healthy child at home when seeking medical help for your sick child in the Pediatric Emergency Center.

Child abduction

To protect your child from being abducted while in the hospital, please be reminded of the following:

- Never leave your child alone and or unattended.
- Never give your child to anyone who doesn't have official HMC identification badge.
- Become familiar with your nurse and other hospital staff who will be taking care of your child.
- Reminder, you will always have the option to accompany your child during a Procedure and or treatment.
- Be sure you report any security issues you may have to our staff immediately. This includes if you are approached by anybody who is not wearing HMC identification.

Please help us communicate these messages by sharing this information with your family and friends
