Development**

**LOW  
VALUE  
CARE**

**HIGH  
VALUE  
CARE**

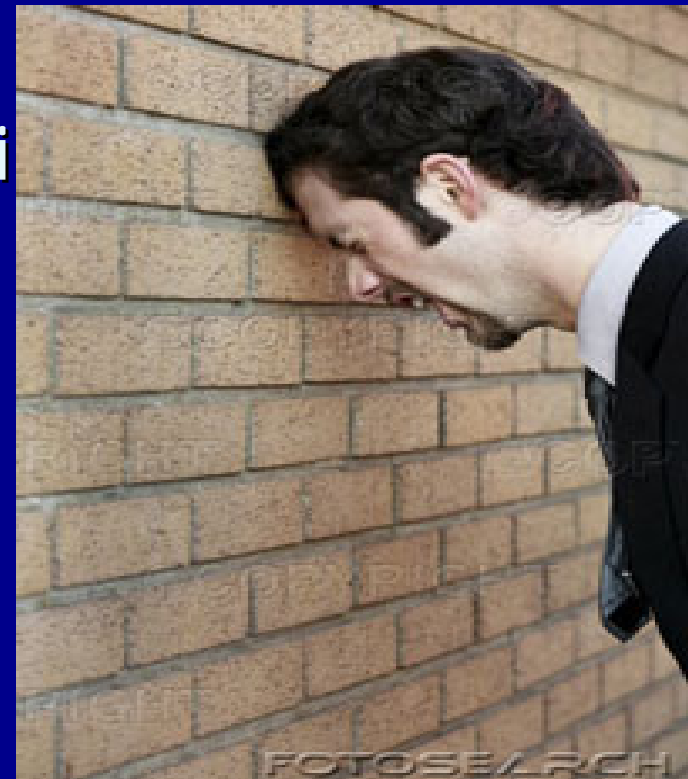

**Patient and  
Public Involvement**

**Professional  
Development**

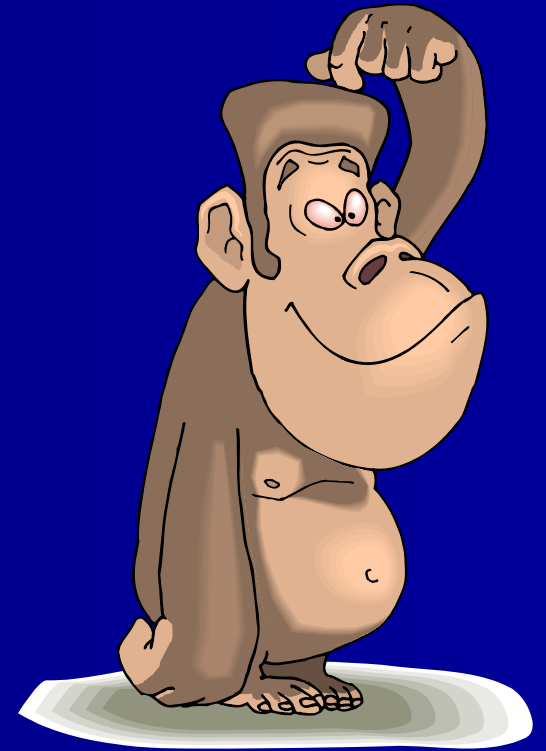

# CHALLENGES

- Fragmentation of services
- Lack of a holistic approach
- Uncertainty of roles
- Lack of continuity & ? sub-opti
- Others :
  - Resources/services
  - Transition to adult service
  - Location ?

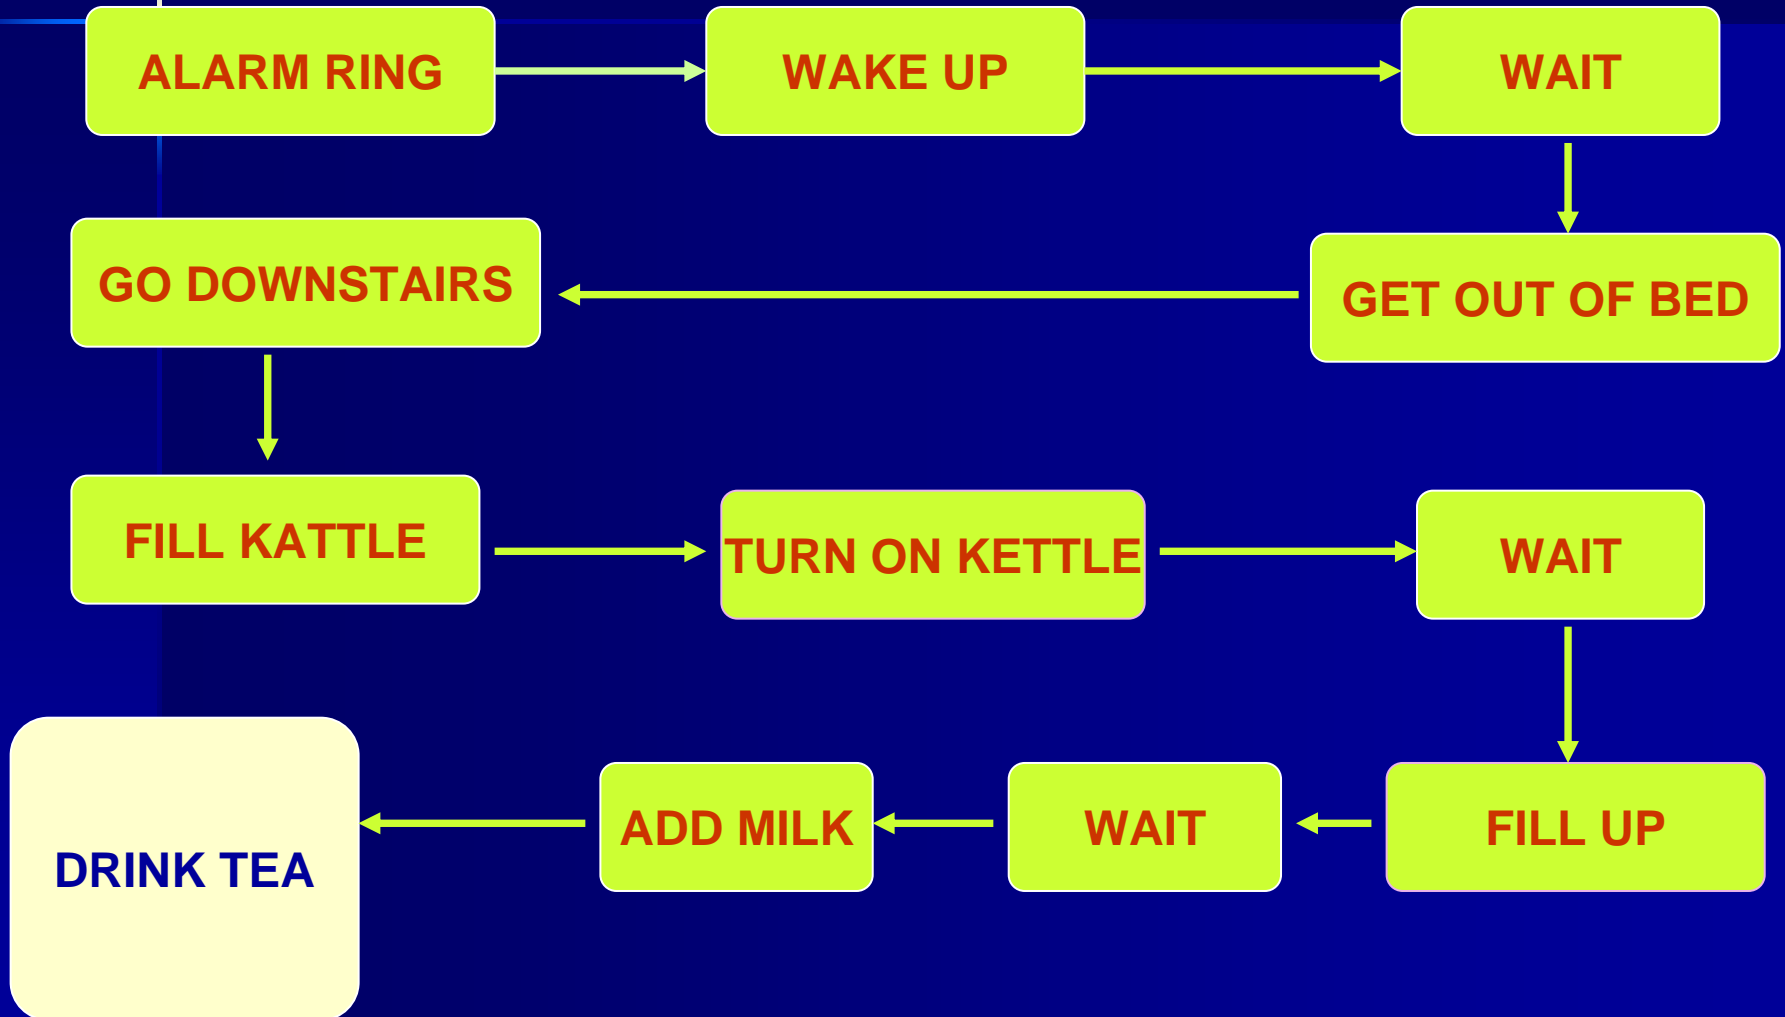

# Care pathway?

- **What** ICP ?
- **Why** ICP?
- **Why** ADHD?

# Domestic Pathway

# What is an integrated care pathway?

# What is an integrated care pathway?

Integrated care pathways are a tool and a concept that embed guidelines, protocols and locally agreed evidence-based, patient-centred, best practice, into everyday use for the individual. The Integrated Care Pathways intends to have the following :

# What is an integrated care pathway?

Integrated care pathways are a tool and a concept that embed guidelines, protocols and locally agreed evidence-based, patient-centred, best practice, into everyday use for the individual. The Integrated Care Pathways intends to have the following :

**The right people**

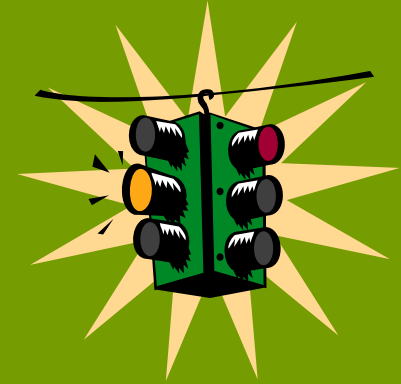

**Doing the right thing**

**In the right order**

**With the right outcome**

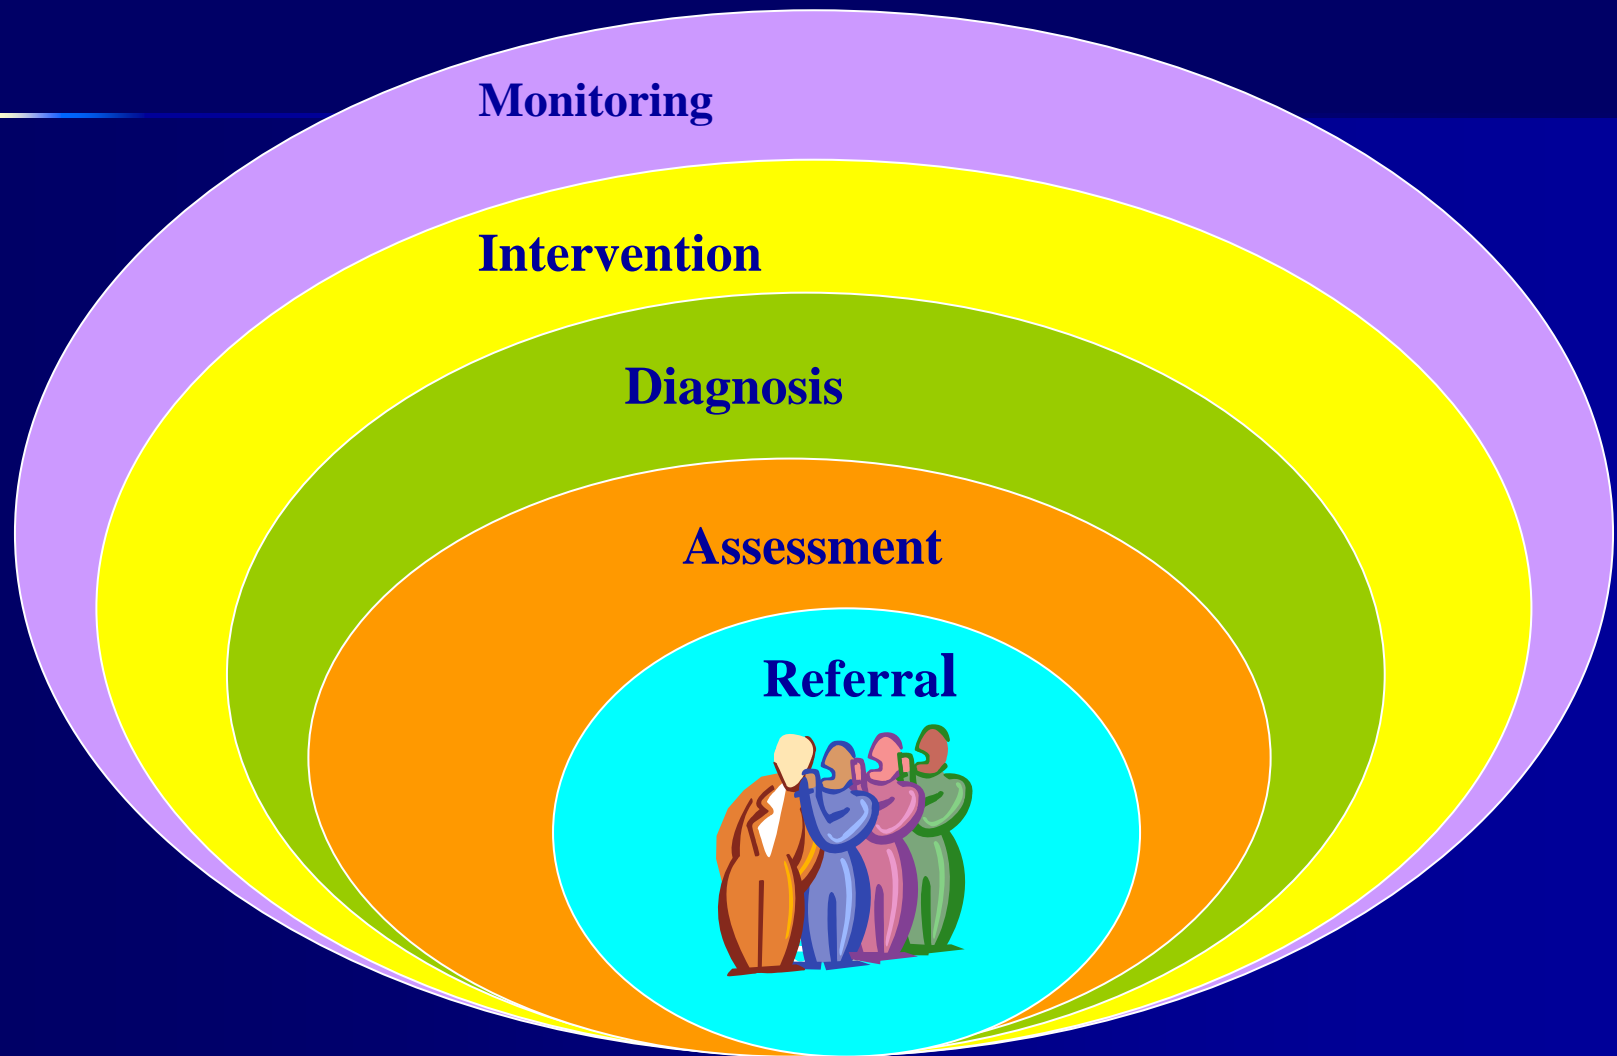

**At the right time**

**In the right place**

# Process Maps

# Why Do We Need an ICP ?

# Why ICP ?

- Reduce unnecessary variations in patient care
- Save time & reduce administrative load
- Define the relationship between agencies
- Promote appropriate targeting of resources
- Provide powerful clinical operational tool
- Empower & inform patient/carers
- Help to highlight area of clinical risks
- Improve patients satisfaction & reduce complaint

**“It’s not the strongest of species  
that survives, nor the most  
intelligent, but the one that’s  
most adaptable to change.”**

*Charles Darwin*
