

Hair removal before delivery

Hair removal before delivery

- Maintain good personal hygiene and pay special attention to armpit area, groin, and skin folds.
- It is not advised to shave the lower abdomen area (bikini line).
- Shaving can irritate the skin and can cause infection.
- A nurse will help you to remove body hair by using clippers if necessary.
- If you are removing pubic hair, do not remove any hair at the bikini line.
- If you would like more information or have any questions, please do not hesitate to contact us.
